## MODERN MOTORCYCLE OIL SYNTHETIC 10W-60

BROUGH SUPERIOR ELF Modern Motorcycle Oil 10W-60 is a state-of-the-art fully-synthetic lubricant developed for 4-stroke sports motorcycles. BROUGH SUPERIOR ELF Modern Motorcycle Oil 10W-60 highly technical lubricant was used for the development and validation of the new Brough Superior SS100 proprietary V-Twin, and will ensure superior performance and the best protection to your engine.

Grade: 10W-60

API: SN

Pack: 1L, 5L

## CHARACTERISTICS\*

Test	Unit	Result
Viscosity grade	-	10W-60
Density at 15°C	kg/m <sup>3</sup>	855
Kinematic viscosity at 40°C	mm <sup>2</sup> /s	121.2
Kinematic viscosity at 100°C	mm <sup>2</sup> /s	18.3
Viscosity index	-	169
Pour Point	°C	-33
OC Flash Point	°C	242

\*The characteristics given above are obtained with a standard tolerance during production and may not be considered specifications.

## RECOMMENDATIONS FOR USE

Before using the product, the vehicle's user guide should be checked. Oil changes should be carried out in accordance with the manufacturer's recommendations.

The product should not be stored at temperatures over 60°C. It should be kept away from sunlight, intense cold and extreme temperature fluctuations.

If possible, the packaging should not be exposed to the elements. Otherwise, the drums should be laid horizontally in order to avoid any contamination from water and to prevent the product's label from rubbing off.

## HEALTH, SAFETY & THE ENVIRONMENT

Based on the toxicological information available, this product should not cause any adverse health effects, provided it is used for its intended purpose and in accordance with the recommendations laid out in the Safety Data Sheet. This can be obtained on request from your local reseller and is available for consultation at [www.quickfds.com](http://www.quickfds.com).

This product should not be used for any purposes other than the ones for which it is intended.

When disposing of the product after use, please protect the environment and comply with local regulations.

Last update of this datasheet: 11/2017

Some variations can be expected under normal production conditions, but these should not affect the product's expected performance irrespective of the site.
